

R. Steve Aaron

Senior Environmental Scientist

Background

Steve Aaron has over 21 years experience in reclamation and regulatory compliance at mining facilities. Mr. Aaron spent 18 years in the mining industry for a major coal producer providing reclamation and regulatory support for both surface and underground mines.

Steve's wide range of expertise includes reclamation and regulatory compliance. His expertise in reclamation included prime farmland restoration, subsidence mitigation, drainage control, revegetation activities, and achieving bond performance standards. Steve holds expertise in regulatory compliance with regard to both environmental and safety permit acquisition and maintenance, audits and inspections.

Certifications/Registrations

- IDNR Blaster Certification
- IDNR Surface Mine Supervisor
- Pesticide Applicator, R.W.W. Aquatics and General, IDOA
- OSHA 40-Hour HAZWOPER Training

Education

Southern Illinois University - Illinois
B.S., Plant and Soil Science
