

Nicky R. Keifer

Site Manager

Background

Nick Keifer has over 11 years experience as a project manager, air sampling technician/professional, and lead inspector/risk assessor. Nick has managed multiple asbestos and lead remediation projects. He has also performed numerous inspections for several different industries including governmental facilities, hospitals, school districts, archdiocese, and industrial facilities.

Nick's tank and container experience encompasses storage tank cleaning and container management. Since coming to NPN Environmental, he has gained experience in remediation services and mold remediation.
