

MARTIN W. SCHAMBER, P.E.

Senior Project Engineer

Background

Marty Schamber, Senior Project Engineer, has over 33 years experience in Mining. Prior to NPN Environmental, Mr. Schamber spent 18 years working for a major coal producer providing support for several underground and surface mines.

Marty's wide range of mining expertise includes mine planning and design and reserve evaluations. In addition, he develops drainage plans, designs impoundments, and prepares permit and bond release applications.

Marty has been instrumental in many of our remedial projects. He has performed subsurface investigations, developed corrective action plans, performed remedial activities, and performed groundwater sampling.

Certifications/Registrations

Registered Professional Engineer

Missouri
